To: BPA SUD Treatment Provider Network

Re: Molina MMIS User Accounts

Providers recently enrolled in BPA's Medicaid Specialty Network are required to verify eligibility for Medicaid eligible clients receiving services under the SUD funding system. Based on the information you submitted on the Molina MMIS Applicant Form, we created user accounts for your staff on the Idaho Medicaid Web portal.

These user accounts are for Medicaid eligibility verification purposes only and do not affect the way that you submit billing to BPA.

BPA will continue to maintain the user accounts for SUD Treatment Provider staff. Please use the attached form to notify BPA of the need for setup of new user accounts or termination of user accounts for staff who have left your agency.

You may contact Provider Network Management staff with any questions you might have at 800-688-4013 or 208-947-4377.

Thank you,

BPA Provider Network Management
